

Name of Project: www.gocomga.com website

Project Coordinator: Nancy Glick

When does the event/project occur? Year-round

Where: online

Brief History of Project: The Central Oregon Master Gardener Association (COMGA) created a website in 2014 to expand the reach of the chapter's educational events such as Spring Gardening Seminar, the June Plant Sale and many classes in the community. The site was also intended to give access of the chapter membership to a calendar of MG activities, a list of active members, the projects needing volunteers, the policies and procedures that govern the chapter and other informational needs.

The website has a public set of pages and password-protected pages for the use of Master Gardeners. It is updated regularly with new information and pages.

Volunteer needs: The website's webmaster has web developer experience and welcomes other 'geeks' with similar knowledge who may want to assist management of the 20+ pages.
