

# Marigold – French

## Key Features

- Vibrant flowers
- Aromatic foliage
- Pollinator attraction
- Companion planting
- Ability to deter certain pests
- Good for containers

## Description

“Blooming from early summer until frost, the showy blossoms generously cover the finely divided aromatic foliage. The flowers and foliage have a spicy fragrance and have been used to deter insects in the garden. Easy to grow and low maintenance, French marigolds are excellent for beds, containers, or as edging plants.”
