

Name of Project: High Desert Garden Tour 2024

Project Coordinators: Amy Jo Detweiler and Horticulture Staff, Liz Anderson and Toni Stephan (MG Volunteers)

Brief History of Project: This project is presented by the OSU Extension Service and COMGA. It is both an educational event and fundraiser for the horticulture program in Central Oregon. One objective is to showcase the possibilities of gardens and landscapes in our area. This will be the 29th annual presentation of this tour.

Volunteers needed: Besides the volunteers who help coordinate this tour, many volunteers are needed to assist during the actual day of the event. Volunteers are stationed at each garden site for shifts of 2-3 hours. Master Gardeners assist the public as they view the gardens by directing foot traffic, answering questions and pointing out specific gardening features at each site. Typically, there are 5-7 sites featured. Additionally, all volunteers receive a free garden tour guide and entry pass to go on the tour if they so choose. A volunteer request for help will be sent as the event gets closer. Please save the date below so you are available to help with this major event!

Event Date: Saturday, July 20, 2024
